## Product Patents

This product may be protected by one or more patents. For further information, please visit: [www.grassvalley.com/patents/](http://www.grassvalley.com/patents/)

## Terms and Conditions

Please read the following terms and conditions carefully. By using UCP-3901 documentation, you agree to the following terms and conditions.

Grass Valley hereby grants permission and license to owners of UCP-3901s to use their product manuals for their own internal business use. Manuals for Grass Valley products may not be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying and recording, for any purpose unless specifically authorized in writing by Grass Valley.

A Grass Valley manual may have been revised to reflect changes made to the product during its manufacturing life. Thus, different versions of a manual may exist for any given product. Care should be taken to ensure that one obtains the proper manual version for a specific product serial number.

Information in this document is subject to change without notice and does not represent a commitment on the part of Grass Valley.

Warranty information is available from the Legal Terms and Conditions section of Grass Valley's website ([www.grassvalley.com](http://www.grassvalley.com)).

# Installation and Network Requirements

This section details the requirements that must be met prior to installing or upgrading a system with the current version of RollCall for use with an UCP-3901. It also provides upgrading and configuration guidelines, as well as tips to improve performance.

## Hardware Requirements

### System Requirements for running the RollCall Client

The client platform must meet the following system specifications for optimal performance:

Operating system	Microsoft Windows 10, Windows 8.1, Windows 8, or Windows 7
Processor	Intel Core i3, the minimum required by the operating system, or better
Memory	8 GB RAM minimum, the minimum required by the operating system, or more
Disk Space	The minimum required by the operating system plus one GB, or more

---

## Network Requirements

Users can access the UCP-3901 from a client PC using RollCall.

It is recommended that the UCP-3901 be installed on a dedicated LAN, using the existing security infrastructure. A qualified system administrator should verify that the setup follows the security standards of your organization. Refer to the *UCP-3901 Installation Guide* for RollCall software installation information.

## TCP/UDP Port Usage

Certain ports must be open on the management network. This information can be found under **Port Usage** in the *RollCall V4 Suite & RollCall Lite Installation Guide*.

## Equipment Interoperability Incompatibility

While UCP-3901 can integrate with a wide range of equipment, this does not guarantee interoperability between equipment. Always consult product datasheets to ensure that common signal types are supported by both pieces of equipment for interoperability.

## Documentation

You can obtain the latest version of the Release Notes and all manuals from the Documentation Library section of Grass Valley's website.

# 2 Release Notes

The *UCP-3901 Release Notes* guide includes lists of new features and enhancements, bugs fixed, as well as known issues and limitations associated with the latest version of the RollCall software.

## Overview

UCP-3901 version 1.0.0 is the first release. See [Known Issues and Limitations](#), on page 8.

## Before Upgrading UCP-3901

Backup the UCP-3901 configuration to your local PC before you perform a UCP-3901 software upgrade so that you can return to the previous UCP-3901 software version if necessary. Refer to **Save** and **Restore** in the *RollCall Control Panel User Manual*, available for download from the Grass Valley website.

## New Features, Enhancements, and Bugs Fixed in GV Convergent

The following is a list of UCP-3901 features and enhancements. The most recent items are marked with a star (★) symbol.

### UCP-3901 Version 1.0.0

This is the first release.

---

## Known Issues and Limitations

The following is a list of known issues and limitations associated with UCP-3901. The star (★) symbol indicates a new issue in UCP-3901 version 1.0.0.

- ★ **UCP-3901 is configured through RollCall or GV Orbit applications:** The UCP-3901 is visible from iControl Navigator. However, it does not have a service panel. Only the card's name and status will be visible from iControl. The UCP-3901 can only be configured through RollCall or GV Orbit applications.

## **Grass Valley Technical Support**

For technical assistance, contact our international support center, at 1-800-547-8949 (US and Canada) or +1-530-478-4148.

To obtain a local phone number for the support center nearest you, consult the Contact Us section of Grass Valley's website ([www.grassvalley.com](http://www.grassvalley.com)).

An online form for e-mail contact is also available from the website.
