# Introducing the ISM-3901/LGK-3901/DSK-3901 v4.10.1

## Fixes

### **IMST-93: Playout of Easytext templates that use a square text aspect ratio do not align with the preview from TextBuilder**

The playout of Easytext templates with a square text aspect ratio was not handled correctly and the text was rendered wider than the preview given in TextBuilder. The effect was more noticeable in HD output modes than in SD output modes. The aspect ratio is now handled in the same way as in Text Builder, so the preview and playout now match.

# Software Update Procedure

ISM-3901/LGK-3901/DSK-3901 requires the following CPIO.GZ archive file for a software update

- lgk-4.x-xxx.cpio.gz

The following steps are required to perform a software update via the ISM-3901/LGK-3901/DSK-3901 web page:

- From a networked PC on the same network as the card, open a web browser and type in the IP address of the card.
- Click the "LOGIN" button.
- Type in the web administrator password (default "miranda") to log into the card's web page.
- Choose the "Software Upgrade" option from the left-hand menu.
- In the "Software Upgrade" section, click on the "Browse..." button and then select the required CPIO.GZ archive file.
- Check the "Are you sure?" checkbox and then click on the "Software Upgrade" button.
- Upgrades take approximately 2 minutes during which time three LEDs on the front edge of the LGK-3901/DSK-3901 card will become orange and cycle continually.
- After the software installation process completes, the card will automatically power cycle and boot the new software.

**IMPORTANT:** Do not eject the card during a software upgrade. Doing so will interrupt programming and may render the card inoperable.
