Grass Valley Web Site

The www.grassvalley.com web site offers the following:

Online User Documentation — Current versions of product catalogs, brochures, data sheets, ordering guides, planning guides, manuals, and release notes in .pdf format can be downloaded.

FAQ Database — Solutions to problems and troubleshooting efforts can be found by searching our Frequently Asked Questions (FAQ) database.

Software Downloads — Download software updates, drivers, and patches.

END-OF-LIFE PRODUCT RECYCLING NOTICE

Grass Valley's innovation and excellence in product design also extends to the programs we've established to manage the recycling of our products. Grass Valley has developed a comprehensive end-of-life product take back program for recycle or disposal of end-of-life products. Our program meets the requirements of the European Union's WEEE Directive, the United States Environmental Protection Agency, and U.S. state and local agencies.

Grass Valley's end-of-life product take back program assures proper disposal by use of Best Available Technology. This program accepts any Grass Valley branded equipment. Upon request, a Certificate of Recycling or a Certificate of Destruction, depending on the ultimate disposition of the product, can be sent to the requester.

Grass Valley will be responsible for all costs associated with recycling and disposal, including freight. However, you are responsible for the removal of the equipment from your facility and packing the equipment to make it ready for pickup.

For further information on the Grass Valley product take back system please contact Grass Valley at + 800 80 80 20 20 or +33 1 48 25 20 20 from most other countries. In the U.S. and Canada please call 800-547-8949 or 530-478-4148, and ask to be connected to the EH&S Department. Additional information concerning the program can be found at: www.thomsongrassvalley.com/environment

JUPITER Release Notes Addendum

This document provides information about issues corrected in the current and recent versions of Jupiter software. In addition, issues known to exist in the current version are documented.

Corrected Issues in the 2.1.0 Version

CR	Correction	Area
103608	When entering the Level mode, the available levels are now pre-selected by default.	LCD Panel
112943	After making the switch you will now remain on the same page in the Single destination mode. The page number can be found in the top left corner of the Single Destination Mode menu.	LCD48 Panel
103378	The Take button is now green and brightly lit when the assigned button for an override is pressed.	LCD Panel

Known Issues/Limitations

As with any software package, some problems and/or limitations remain. Many of these are known and are detailed below.

Please note that the following description of these issues is not an agreement to correct or to modify them.

CR	Problem/Limitation	Work Around	Area
113194	When using the S50 / S100 panels, a selected button will Infrequently not display status. However, the switch does occur.	N/A	S50 / S100 panels
