## **New Features of Version 3.3.1.1668**

*This update provides the following additional features:*

- T2 automatically scans and imports a clip in watch folder when starting T2 Command Center
- T2 automatically restarts if T2 freezes (except running in maintenance mode)
- Support two HD output while recording a footage in XDCAM HD MXF format

## **Update History**

*This Service Pack fixes/improves the following issues:*

- Played video stutters while variable speed playback (SFDC#00757542)
- Time code chase playback stops even though enabling 'Continue playback' option (SFDC#00760955)
