Asia (except China/Korea)	+86 21 5869 8668

Authorized Support Representative

To locate the support representative for your country, visit the Product Support webpage on the Grass Valley website: www.grassvalley.com/support/contact.

Important Notification

EDIUS 8 requires SHA-2 hash algorithm code signing for Grass Valley hardware driver installation. All versions of Windows 7 and Windows 8 / 8.1 already support SHA-2 code signing, but if you are running Windows 7, you will need to install Security Updates.

SHA-2 code signing requires the installation of TWO Security Updates on Windows 7 in order to install Grass Valley hardware.

They MUST be installed in the following order:

1. [Security Update for Windows 7 for x64-based Systems \(KB3035131\)](#)
2. [Security Update for Windows 7 for x64-based Systems \(KB3033929\)](#)

If they have not been installed, EDIUS installer will ask you to install the security updates.

Update History

The following issues are fixed or improved in this version:

EDIUS

- Keyboard shortcut for title insertion mode does not work. (SFDC00493130) (EDIUS Workgroup only)
- EDIUS takes a long time to open certain MP4 clips. (SFDC00504299)
- EDIUS freezes when using the title insert control panel. (SFDC00503831) (EDIUS Workgroup only)
- Garbage clip appears after the timeline cursor position in title insertion mode. (SFDC00505704) (EDIUS Workgroup only)
- Missing transparency in title layouter. (SFDC00507528)
- EDIUS does not load a growing file. (SFDC00509620) (EDIUS Workgroup only)
- Waveform cache is sometimes not generated. (EDIUS XS only)
- Trimming a clip works slowly in overwrite mode. (SFDC00509871)
- EDIUS applies default effect at the out point in title insert mode.
- Vertical line noise is introduced if the Old Film effect is applied. (SFDC00512680)
- Noisy frames randomly appear while playing a Canon EOS movie file. (SFDC00512678)
- K2 Exporter "Export As Sequence" does not work when exporting via XRE (CIFS mapping only) (EDIUS Workgroup only)
- Registering a clip to K2 is slower than with STRATUS RMI. (SFDC00501149) (EDIUS Workgroup with GV STRATUS only)
- EDIUS XRE crashes when rendering a timeline sequence that contains a P2 proxy clip. (SFDC00512392) (EDIUS Workgroup only)
